About Me

I design data collection strategies to better understand the intersection of user choice, algorithmic curation, and choice architecture in online platforms. Drawing on my background in the psychological, computer, and network sciences, my goal is to foster a deeper and more widespread understanding of how humans and algorithms interact in digital spaces.

Education

Degree	University	Time	Details
Network Science PhD	Northeastern University	2016-2021	Advised by Christo Wilson (Computer Science) & David Lazer (Political Science); Dissertation: An Interdisciplinary Examination of Partisanship in Web Search.
Psychology BA	University of California San Diego	2010-2012	Graduated cum laude, Sociology minor.

Experience

Institution	Position	Time	Contributions
Stanford Internet Observatory	Research Scientist	2023-current	Leading projects on trust and safety in web search, the impact of large language models with chat interfaces, and the development of new methods for targeted content discovery.
	Postdoctoral Fellow	2021-2023	Published research articles and commentary on user-algorithm interactions in peer-reviewed outlets including <i>Nature</i> , <i>Science Advances</i> , and <i>Perspectives on Psychological Science</i> ; Guest-edited a special issue of the <i>Journal of Online Trust and Safety</i> .
Microsoft Research NYC	Research Intern	2019	Worked with the Fairness, Accountability, Transparency, and Ethics in AI (FATE) team to assess the quality and impact of email reply suggestions and published our findings in the <i>Proceedings of the 2021 ACM Conference on Human Factors in Computing Systems (CHI)</i> .
American Institute for Behavioral Research and Technology	Associate Director	2015-2016	Designed experiments, surveys, and data analyses; directed and trained research teams; managed pursuit of funding; published research in journals including the <i>Proceedings of the National Academy of Sciences (PNAS)</i> and <i>Behavior Analysis: Research and Practice</i> .
	Assistant Director	2012-2015	Established 501(c)(3) non-profit status; recruited, trained, and supervised research assistants; presented at peer-reviewed conferences; received coverage on our work from sources including: The Washington Post, PBS, Al Jazeera, and US News & World Report.
